

Lunch - HOT TOPICS

Join us for eight **Hot Topic** Lunch sessions. Enjoy lunch and consider participating in a Hot Topic conversation. Conversations will be run twice to accommodate both lunch times:

1. Who Am I?: Three Gift Buckets
Bruce Anderson

Community organizing and human service-systems depend on identifying and using the abilities in a person as the basis for helping them to move forward in their life. But ability/interest lists don't distinguish between what a person "can do" and "what they really want to do and will stick with." This distinction is critical for motivation and success. This session will introduce helping professionals to the 3 Gift Buckets tool, which can be used with people receiving support and also with employees to increase opportunities to bring more of what matters to them into their daily life with others.

2. "The Next Generation of Technical Assistance and Training"
Cesilee Coulson – W.i.S.e. and Belinda Kindschi – Service Alternatives Training Institute

Join us in a conversation about technical assistance, training, and consultation to best support individuals living full lives in their communities. What support is needed to build inclusive communities? Who are new partners for us to engage? What should we continue that is working? What should we add that is missing?

3. Agency Collaboration –
Facilitators to be announced

As employment, supported living, and public providers we all support individuals to have full and meaningful lives. You are invited to come together with hearts and minds to create a space where we appreciate each other's strengths and build a vision for future partnerships and collaborations supporting individuals more fully. Respect and appreciation opens a space in which it is possible to listen for a better understanding to what really matters.
